FLOWERING SHRUBS

While the following are all flowering varieties some are of more value for the attractive berries, bark or foliage and are so designated. Ultimate height is noted as low, medium or tall and approximate season of bloom by months.

Height	18-24″	2-3′	3-4′
Price each	.35	.50	.75
Ten or more at	.30	.40	.65

Althea ..... Red, pink, purple. Jul-Aug. Tall.
Bush Honeysuckle ..... Pink or red. Red fruits. June. Tall
Butterfly Bush ..... Lavender. Lasting fol. July on. Med.
Caragana (Pea Tree) ..... Yellow. Green bark. May. Tall.
Deutzia, P. of R. ..... Light-pink. June. Dull fol. Med.
Dogwood, Siberian ..... White. Blue frts. Red bark. Tall
Elder, Cut-leaf ..... White. Red frts. Green fol. Tall
Elder, Golden ..... White. Black frts. Golden fol. Tall
Flowering Almond ..... Pink or white. April. Med.
Forsythia, Intermedia ..... Yellow. Very early bloom. Tall.
Japan Quince ..... Red-Orange. Fragrant frts. Apr. Med.
Lilac, Persian ..... A solid mass of lavender bloom. Tall
Mock Orange, Caronarius ..... Sweet Scented. May. Tall
Ninebark, Dwarf ..... White fls. Red pods. May-June. Low
Ninebark, Aureus ..... White. May. Gold fol. Red pds. Med.
Privet, Lodense ..... White. June. Black frts. Compact. low.
Rhodotypos (White Kerria) ..... White. Black fruits. Low.
Rosa Rugosa All colors; attractive fol. Red frts. Med.
Snowberry, Mollis ..... Pink, Jun., Jul. Lge. white frts. Med.
Sorbaria ..... White plume. June. Fernlike fol. Med.
Spirea Arguta ..... White garland. Earliest of all. Med.
Frobella ..... Pink. Jun-Jul. Maroon foliage. Low.
Van Houtte ..... White. Apr. Best of all Spirea. Med.
Sumac, Cut Leaf ..... Lacy, red fol. & red fruits. Tall.
Tamerix, Hispida ..... Pink. Feathery silver-green fol. Tall.
Weigela Rosea ..... Pink. May-June. Dependable. Med.

Height	18-24″	2-3′
Price each	.50	.75
Ten or more at	.40	.65

Barberry, Japan ..... Yellow. Red fruits and fol. Low
Barberry, Red leaved ..... Red foliage all summer. Low.
Beauty Bush ..... Arching sprays of pink bloom. May. Med.
Caryopteris ..... Blue, Spirea-like bloom in Sept. Low.
Coralberry, Chenaulti ..... New and better variety. Med
Cotoneaster, Pekin ..... Pink. Black frts. Red fol. Med.
Currant, Golden ..... Spicy, yellow fls. Yel. fol. May. Low
Dogwood, Stolonifera ..... Wine-red bark. White frts. Med.
Euonymus Alatus ..... Yellow. Red frts. & foliage. Med.
Hydrangea, Snowhill ..... White, Jun-Jul. Lge. leaves. Low
Lilac, French ..... (Budded) All colors. $ .75 and $1.00
Lilac Rothomagensis ..... Reddish-purple. Hardy. Tall
Karria Japonica ..... Single yellow fls. Green bark. Low
Mock Orange, Virginal ..... Lge. dbl. Sweet. May-Aug. Med.
Snowball, Common ..... Largest bloom. May. Tall
Spirea, Korean ..... Like Van Houtte but lgr., later fls.
Sumac, Canadian ..... Fragrant red fol. and fruits. Low.
Vitex, Cut-leaf ..... Blue. July on. Aromatic fol. Med.

COLUMNBERRY (Truehedge Barberry) — So named from its upright growth and dense foliage from the ground up, rapidly forming a compact hedge with little pruning. Will also stand clipping to a pleasing resemblance of boxwood or privet without injury. Extremely rich deep coloring in autumn. Leaves larger and heavier. Pat. No. 110. 15-18 in. 50c each $4.00 per ten.

VIBURNUM CARLESI (Pink Snowball)—Rose tinted and very sweetly scented. Attractive gray-green foliage. A new shrub of dwarf habit. Hardy. 18-24 in. each $1.25

Ask for Quantity Quotations

ROSE BUSHES

Standard Varieties at 40c each; 10 for $3.50

Ami Quinard ..... Very dk. Crimson-maroon. Lasting Frag
Autumn ..... Burnt orange and yel. Long stems. Profuse.
Chas. P. Kilham ..... Bril. red-orange. Extremely large
Caledonia ..... Best white. large and dbl. long stems.
Cuba ..... Cardinal-red; gold tinted. Very large. Bedding
Dame Edith Helen ..... Clear pink. Large and full.
Duchess of Athol ..... Old rose and gold. Long stems
Edith N. Perkins Cerise; sal-gold inside. Long stems
Grenoble Striking scarlet-crimson. Large; long stems
Golden Gleam ..... Rich yellow; crimson veins. Long stems
Heinrich Wendland ..... Two tone red & gold. Large; Dbl.
Joanna Hill ..... Light yellow; bronze-pink. Long stems
McGredy's Ivory ..... Ivory-white; perfect shape. Frag.
Miss Rowena Thom ..... Rose-pink; golden base. Very lge.
Mrs. E. P. Thom Pure yellow. Rated one of the best
President Hoover ..... Cerise-orange. A beautiful rose.
Romance ..... Clear golden yellow. Well formed; lasting
Talisman ..... Multi-color gold-red-yellow. A favorite.
Vaterland ..... Deep scarlet-crimson; velvety. Very dbl.
Clbg. Am. Pillar ..... Bright cerise-pink; white center
Clbg. Am. Beauty ..... Deep pink. Continuously popular
Clbg. Duch. of Wellington ..... Beautiful saffron yellow.
Clbg. Los Angeles ..... Climbing type of this favorite
Clbg. Paul's Scarlet ..... Most brilliant scarlet. Large
Clbg. Pres. Hoover ..... Bloom similar to bush type
Clbg. Rose Marie ..... Satiny rose-pink. Large; fragrant
Clbg. Silver Moon ..... Snow-white with showy gold stmns.

TERMS AND CONDITIONS OF SALE

TERMS--Cash with order or before shipment, except to customers of established credit. Local Free Delivery within city limits on orders of $3.00 or more, with 50 per cent deposit required on all c. o. d. orders.

FREE FREIGHT AND PACKING—Orders of $10.00 or more, at single rate quoted and accompanied by cash in full, will be delivered to your nearest railroad station CHARGES PREPAID. This includes all stock listed except Shade, Ornamental and Evergreen trees.

GUARANTEE—If nursery stock, etc., proves untrue to description under which it was sold, I hold myself in readiness, upon proper proof, to replace all nursery stock, etc., that may prove untrue or refund the amount originally paid for same; but I shall in no case be liable for any sum greater than the amount originally received for said stock. Your signed order will be construed as your agreement to the terms of this guarantee.

REPLACEMENTS—A small per cent of nursery stock fails to grow even with the best of care. I experience this in my own planting and I expect it. This is also true regarding some of the stock I sell, notwithstanding the fact that it receives the best of attention in handling and aftercare.

Several factors may contribute to failure, such as delay in transit, impoverished, unprepared or unadapted soil, improper setting, failure to prune, drought or injury. Owing to the fact that I have no control over these factors I cannot of course be held responsible for failure resulting therefrom and replacement without charge is impossible.

CLAIMS—Human help is not infalliable and errors occur in all lines of business. Your satisfaction, however, is my success, and to insure proper adjustment, all claims for errors, shortage or anything else pertaining to your order, must be made promptly after receipt of goods.

Ask for Quantity Quotations

HINTS ON PLANTING

First—Be sure that roots of trees and plants are kept moist and well covered from time of leaving nursery until planted. Set trees and shrubs three to four inches deeper than they stood in the nursery.

Second—Dig holes larger and deeper than necessary to receive roots in their natural position without bending. Place tree or shrub in center of hole and fill with fine top soil, working same well among the roots. When about three-fourths filled with soil, fill hole with water and when water has settled finish filling with soil; firm soil gently with the foot and rake surface level.

Third—When through planting, if one-year-old trees, cut back to a uniform height of about thirty inches from the ground. Side limbs, if any, should be cut close to body of tree. Peach trees should have side limbs cut to within one inch of body of tree. If two-year-old trees, there will be from three to six branches. Cut out all but three or four limbs suitable to form a well balanced top, and cut each side limb back to four or five inches from body of tree, leaving leader or center limb twenty to twenty-four inches long.

In the pruning of Shrubs care should be exercised as severe pruning of some varieties will cause them to make wood growth at the expense of the blossom-forming buds. Other varieties such as bush roses, Hydrangea, etc., that bloom from the tips of the new wood, need severe pruning to form new wood. Prune while dormant, first cutting out all dead branches and those growing too thickly; then prune lightly where necessary to the proper shaping of the plant.

ROSE BUSHES should be so planted that junction of lower branches remains at least two inches below the surface. Cut branches back to within three inches of the surface and mound the soil up around the branches to the top. Keep soil moist at all times and after about two weeks the mound may gradually be removed. This allows the roots a chance to become established and prevents the tops from withering.

Fourth—If weather is warm and dry, water thoroughly every six to eight days. Soil should be stirred with a hoe, as soon as dry enough to work mellow, after each watering.

Fifth—If trees are dry and shriveled when received, bury in moist soil for five or six days.

Sixth—Never allow manure to come in contact with roots of newly planted trees or shrubs, but if put on top of ground after planting it is of benefit as a mulch.

Seventh—Never handle trees in frosty or windy weather. Should shipment of nursery stock be suspected of having been frozen in transit, do not open the bale or box but place in basement or other COOL place, or bury completely in the soil and allow to remain until the frost is drawn out.
